No-SQL -
MongoDB
Management -
My-SQL

PROJECTS

Steam Room

(MERN Stack)

MERN Stack -Spin off of 'break room', online forum style, focusing around today's issues regarding lack of time and ability to talk through ongoing problems one may encounter. Steam Room provides a safe help space to be able to voice one's problems and get feedback from other members

Wayfarer

(Django, Collaboration)

A travel destination site, allowing guests to add site seeing or activities pinned to different locations in the U.S.

CRUD

(M.E.N Stack, Collaboration)

Stands for Connect, Resources, Unite Developers, a blog like app where users create profiles and populate them with a tech stack they are using or would like to learn about. Focus on bringing solid, useful documentation without any filler or rabbit holes.

User Stories

(Node, Express, Handlebars, Mongodb)

Basic blog site where users create their own accounts and populate a board with life stories they have been through, and other users are able to interact
